#### IEC Appliance Inlet C14 with Filter

#### **Description**

- Panel mount :
- Screw-on mounting front side
- 2 Functions:
- Appliance Inlet Protection class I , Line-filter in standard version
- Quick connect terminals 6.3 x 0.8 mm

#### See below:

#### **Approvals and Compliances**

#### **Characteristics**

- Compact design with optimal shielding
- All single elements are already wired
- Universal line filter for standard applications
- For applications according IEC/UL 62368-1 we recommend variants with bleed resistor

#### References

We recommend for new applications the type 5120

# **Approvals and Compliances**

Detailed information on product approvals, code requirements, usage instructions and detailed test conditions can be looked up in Details about Approvals

SCHURTER products are designed for use in industrial environments. They have approvals from independent testing bodies according to national and international standards. Products with specific characteristics and requirements such as required in the automotive sector according to IATF 16949, medical technology according to ISO 13485 or in the aerospace industry can be offered exclusively with customer-specific, individual agreements by SCHURTER.

### **Approvals**

The approval mark is used by the testing authorities to certify compliance with the safety requirements placed on electronic products. Approval Reference Type: KFS
